<sup>1</sup> For beneficiaries using both military and civilian care, their responses to military satisfaction questions are found under Mil Care, while their responses to civilian satisfaction questions are found under Civ Care

<sup>2</sup> Average Satisfaction Scale values represent the arithmetic mean for responses to parts of questions 51, 52, 66 and 67, where the responses range in value from one for very dissatisfied (or poor) to five for very satisfied (or excellent)

<sup>3</sup> The bottom number of each cell is the standard error of the sample estimate

<sup>1</sup> Average Satisfaction Scale values represent the arithmetic mean for responses to parts of questions 51, 52, 66 and 67, where the responses range in value from one for very dissatisfied (or poor) to five for very satisfied (or excellent)

<sup>2</sup> The bottom number of each cell is the standard error of the sample estimate

<sup>3</sup> Since these beneficiaries used both military and civilian care, the populations are equivalent for Mil Care and Civ Care

Table 13

**Reasons for Not Using a Military Treatment Facility for Most Care in the Past 12 Months (55, 56)**  
**All Beneficiaries (55) and Beneficiaries Who Did Not Use a Military Treatment Facility for Most Care in the Past 12 Months (56)**  
**Percent of Beneficiaries by Location (CACSMPLP)<sup>1</sup>**

## Region 5
